# Welcome Message

United Scientific Group welcomes you all to its first **International Conference on Clinical Sciences and Drug Discovery (CSDD-2015)** in **Baltimore USA**, during **November 02-04, 2015**. This is a unique conference that brings together a host of senior level experts from the fields of drug discovery and clinical sciences closer to the doorstep of pharmaceutical scientists, internists and primary care physicians from all over the world.

This unique international conference will provide a perfect opportunity for multidisciplinary collaboration between clinical, scientific, policy makers, innovators, public health researchers, pharmaceutical scientists, internists and primary care physicians from all over the world to discuss important international breakthroughs in the fields of clinical sciences and drug discovery to join with their colleagues for 3 days of stimulating networking event.

The organizing committee is confident that participants will benefit from the high value scientific program. We welcome all the researchers to join us for these 3 days of stimulating discussions, knowledge sharing and networking event.

Best Wishes

**CSDD-2015 Organizing Committee**

# CSDD-2015

**International Conference on Clinical Sciences and Drug Discovery (CSDD-2015)** has been designed to have an insight on the drug discovery and targeted drug delivery systems. It is important that the professionals should meet up on regular basis to interact, network and exchange ideas and concepts. It is only by sharing ideas we develop new one that catalyze technological advancement.

This conference is all set to bring together the global industry leaders, policy makers, innovators, public health researchers, pharmaceutical scientists, internists and primary care physicians together on one platform discussing the new opportunities in the transition.

Throughout the course of the three day conference, you will get an exclusive opportunity to network and be involved in inspiring and interesting discussions of scientists and researchers from the international pharmaceutical, academic and clinical communities with focus on Drug Discovery, Analytical Sciences, Biologics, Biomarker Development, Chemistry, Drug Metabolism & Pharmacokinetics, Developmental & Molecular Pathways, Preclinical Safety, Imaging, Translational Medicine and many more research topics.

# Conference topics

- Analytical Sciences
- Biopharmaceuticals
- Gene Therapy & Pharmacogenetics
- Biologics: Small Molecules, Adjuvants, Immunoassays
- Protein and Peptide Sciences
- Clinical Trials & Translational Medicine
- Drug Metabolism & Pharmacokinetics
- Cheminformatics
- Drug design and therapeutics
- Molecular modeling & In Vitro Technologies
- Medical Imaging
- Biomarkers & Diagnostics
- Clinical Trials, Preclinical Safety and Regulatory Affairs
- Computer Aided Drug Designing (CADD)
- Cancer Targeted Drug Delivery
- Anti-Infectives
- Innovative Drug Discovery and Nanotechnology
- CNS Drug Discovery
- Diabetes and Obesity Drug Discovery
- Cardiovascular Drug Discovery
- Drug Delivery & Targeting

# Important Dates

- Conference Dates: *November 02-04, 2015*
- Abstract Submission opens: *March 16, 2015*
- Registrations opens: *March 23, 2015*
- Registrations end: *October 09, 2015*
- On-spot registrations: *November 02, 2015*

## Mark your presence and meet your peers !

The conference helps you to..

### 1. Discover new and cutting-edge research

Gain insights about the latest science and enhance your knowledge beyond your scientific field of interest. With a robust scientific program, a new path that links and organizes select sessions from the scientific program into cross-disciplinary themes.

### 2. Unparalleled visibility for your science

The conference draws both luminaries in their fields and up-and-coming talent. The meeting will attract active participants including students, academicians, policy makers and other high level decision makers. With this varied kind of participation come plenty of opportunities to seek out funding for new research and get quality feedback before publishing your research in a peer-reviewed journal.

### 3. Network with your peers

The meeting offers unlimited ample opportunities to network with your colleagues from various backgrounds and regions. Boost up your network with your peers at the opening ice breaker reception and connect with people who specialize in your field during daily networking breaks.

### 4. Give leads to your career

International Conference on **Clinical Sciences and Drug Discovery (CSDD-2015)** can help you to achieve your career goal and increase your worth to potential employers.

# Sponsors and Exhibitors

CSDD-2015 gives an opportunity to be a sponsor for the conference. There are different levels of sponsorship available, as well as individual items available for sponsorship. Recognition will be given to each sponsor on the preliminary program conference website, at the event (in respective sessions or areas), on signage, in pre-conference marketing materials, and on the conference proceedings. This is a great opportunity to highlight your organization in front of an enormous gathering of potential students, academicians, researchers and industrial experts.

# UNITED SCIENTIFIC GROUP

**United Scientific Group (USG) is an expert-driven initiative to:**

1. Identify and bridge the gap in knowledge by creating and implementing new scientific and technology specific platforms, forums and products to discuss bottle-neck issues and the recent research advances which need to be addressed and updated.
2. Publish and promulgate the innovative/noble research findings with an ethical and stringent review process to make a step-change in the fields of science and technology.
3. Partner with an objective to bridge the gap between business and science for the translation of scientific discoveries and innovative thoughts into implementable solutions and products which benefit humankind.

Led by the editor's association and the advisory board which includes academicians, researchers, and industry leaders, the USG team is committed to work together and create a network which delivers the best scientific solutions and contributes the best services to the scientific community.

## USG Consultancy Services

### To deliver the best scientific solutions

Foster collaborations with our potential clients to deliver the best solutions which can be deployed, accepted, and sustained in the fields of science, healthcare, pharma and medicine.

## USG Scientific and Technology Events

### Platform to present, share and network

Identifying and filling gaps in knowledge by creating and implementing new scientific and technology platforms that can accelerate research in support of goals, and investing in potentially transformative ideas in the fields of science, medicine and technology

## USG Publishing

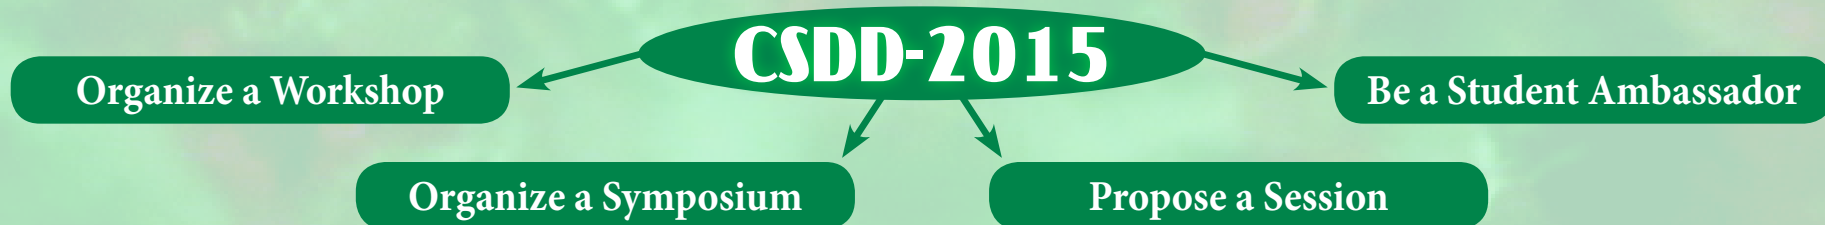

### Innovative Science Delivered-As it happens

Publishing and promulgating the innovative research findings with ethical and stringent review process to make a step-change in the fields of science, medicine, engineering and technology.

## USG World Forums

### Great Ideas form thought leaders

Development of forums with creative minds across the world and form diverse fields including scientists, researchers, academicians, policy makers, business leaders discussing the define areas of urgent need and bottle-neck issues which need to be addressed internationally.
