Neurological Disorders Summit

Our Agenda

Improvising Advanced Tools and Techniques for Better Therapeutics

July 06-08, 2015
DoubleTree by Hilton Hotel San Francisco Airport
San Francisco, USA

NDS-2015
Inauguration NDS-2015 ..................................................09:00-9:30:00

**Keynotes**

Presentation on: **Biologically based genomic therapy for brain reward deficiency syndrome: Are we going to the promised land?**
Kenneth Blum, University of Florida, USA

09:30-9:55

Presentation on: **Recent progresses on neuroimaging with ultra-high field MRI**
Zang-Hee Cho, Gachon University of Medicine and Science, South Korea

09:55-10:20

Presentation on: **Intranasal small molecules, proteins, oligonucleotides and stem cells bypass the blood-brain barrier and target the brain to treat Alzheimer’s, Parkinson’s, stroke, brain tumors, MS and other brain disorders**
William H. Frey II, University of Minnesota, USA

10:20-10:45

Presentation on: **Genomics view of neurodegenerative disease**
Shoji Tsuji, The University of Tokyo Hospital, Japan

10:45-11:10

**Tea Break** ..............................................................11:10-11:25

**Break Out 1**

- Diagnostics of neurological disorders: Symptomatology, pathophysiology and etiology
- Diagnostics of neurological disorders: Neuroimaging and laboratory studies
- Parkinson’s disease and other movement disorders

Presentation on: **Gene-environment interactions, experience-dependent plasticity and therapeutic targets for neurological disease**
Anthony J. Hannan, University of Melbourne, Australia

11:25-13:20

Presentation on: **Transthyretin and the Nervous System: friend or foe?**
Joel N. Buxbaum, The Scripps Research Institute, USA

Presentation on: **Brain-derived neurotrophic factor and glial cell line-derived neurotrophic factor inhibit ferrous iron influx via divalent metal transporter 1 and iron regulatory protein 1 regulation in ventral mesencephalic neurons**
Ning Song, Medical College of Qingdao University, China

Presentation on: **Dopamine turnover in the nigrostriatal system of MPTP-treated mice at the presymptomatic and early symptomatic stages of Parkinsonism**
Michael Ugrumov, Institute of Developmental Biology RAS, Russia

Presentation on: **Genomics-based bioinformatics analysis of Parkinson’s disease**
Li M. Fu, AHMC Healthcare, USA

Presentation on: **The death of human cortical neurons due to exposure to exogenous Aβ oligomers prevented by NPS 2143, a selective antagonist of the calcium-sensing receptor**
Ilaria Dal Pra, University of Verona, Italy

**Lunch Break & Networking** .................................13:20-14:05

Presentation on: **Synuclein immunotherapy for Parkinson’s disease and other synucleinopathies**
Wagner Zago, Prothena Biosciences, USA

14:05-16:05

Presentation on: **Analysis of volatile organic compounds in rats with dopaminergic lesion: possible application for early detection of Parkinson’s disease**
Soliman Khatib, Tel-Hai College, Israel

Presentation on: **Role of GRKS in L-DOPA-induced dyskinesia**
Eugenia V Gurevich, Vanderbilt University Medical Center, USA
Presentation on: Ganglioside GM1 deficiency as a cause of Parkinson’s disease
John Forsayeth, University of California San Francisco, USA

Presentation on: Saposin C and the glucocerebrosidase/alpha-synuclein connection in Parkinson’s disease
James M. Gruschus, National Institutes of Health, USA

Presentation on: Tremor in Parkinson’s patients using deep brain stimulation and cueing
Tjitske Heida T, University of Twente, The Netherlands

Presentation on: Progress in development of anti-Parkinson drug with unique specificity
Judit Ovádi, Hungarian Academy of Sciences, Hungary

Presentation on: Sulfonylphthalimides: A novel class of dual-acting compounds for the treatment of Parkinson’s and Alzheimer’s disease
Mietha M. Van der Walt, North-West University, South Africa

Presentation on: Clinical features and diagnosis of chronic traumatic encephalopathy
Philip Homes Montenigro, Boston University School of Medicine, USA

Presentation on: Dysphagia in Parkinson’s disease: A new approach to an old issue
Ailton Mel, Federal University of Bahia, Brazil

Presentation on: Amperometric biosensors for in vivo brain biomonitoring
Carlos Alberto Cordeiro, University of Groningen, The Netherlands

Presentation on: Diagnostic stability of psychiatric disorders in re-admitted psychiatric patients in Kerman, Iran
Abdolreza Sabahi, Kerman Medical University, Iran

Presentation on: Cognitive rehabilitation in Alzheimer’s disease: Concepts, evidence and challenges
Martine Simard, University Laval, Canada

Presentation on: Cytokine-dependent synaptopathy at the basis of disability progression in multiple sclerosis
Silvia Rossi, Fondazione Istituto Neurologico Carlo Besta, Italy

Presentation on: Extrapyramidal syndrome: Needs more attention
S. Mohammad Moosavi, Mazandaran University of Medical Sciences, Iran

Presentation on: A case of anoxic brain damage - An anthropological perspective
Elisabeth L’Orange Furst, University of Oslo, Norway
Presentation on: **Impact of APOE ε4 on medial temporal lobe structures, implications for prevention of Alzheimer’s disease**  
Joy L. Taylor, Stanford University School of Medicine, USA

---

**Lunch Break & Networking**  
13:20-14:05

Presentation on: **Modulators of proteasome function and β-Amyloid Toxicity**  
Wail M. Hassan, University of Wisconsin, USA

Presentation on: **Granulovacular Degeneration and tau fibrillary pathology**  
Christoph Köhler, University of Cologne, Germany

Presentation on: **Neurotensin and Alzheimer’s Disease: Therapeutic potential of NTS1 agonists**  
Saabo Lei, University of North Dakota, USA

Presentation on: **Proteolytic cleavage of apolipoprotein E4 as the keystone for the heightened risk associated with Alzheimer’s disease**  
Troy T. Rohn, Boise State University, USA

Presentation on: **A potential function of secreted exosomes in sequestering Alzheimer’s amyloid-β peptide**  
Yasuyuki Igarashi, Hokkaido University, Japan

Presentation on: **Series study of traditional chinese medicine in the treatment of Alzheimer’s disorder**  
Zhengzhi WU, Shenzhen Institute of Gerontology, China

---

**Tea Break**  
16:05-16:20

Presentation on: **Rationale and discussion into parallels on depression and Alzheimer’s disease and different genomic vulnerability leading to therapeutic utilities**  
Roberto Rodrigues, University of Texas San Antonio, USA

Presentation on: **Effects of natural Cerebrolysin on the early intervention of Alzheimer’s disease and its molecular mechanism**  
Feijuan Huang, First Affiliated Hospital of Shenzhen University, China

Presentation on: **Testing a structural equation model of language-based cognitive fitness with longitudinal data**  
Elizabeth Moxley-Paquette, Wasdell Academy Ontario, Canada

Presentation on: **Using the MMSE as a cognitive screener among Turkish and Moroccan migrants**  
Lennaert A.R. Zwart, Slotervaart Hospital, The Netherlands

Presentation on: **Prevalence of domain-specific cognitive impairment in patients with COPD**  
Fiona Cleutjens, Centre of expertise for chronic organ failure, Netherlands

Presentation on: **Insulin degrading enzyme and Alzheimer disease and Type 2 diabetes**  
Hugo Gutiérrez-Hermosillo, Hospital Aranda de la Parra, México

Presentation on: **EEG reveals lower regional blood perfusion and atrophy of temporo-parietal network associated to memory deficits and hippocampal volume reduction in MCI due to Alzheimer’s disease**  
Davide V Moretti, IRCCS S. Giovanni di Dio Fatebenefratelli, Italy

Presentation on: **Rivastigmine transdermal patch: Frequency and severity of adverse events in subjects with low body mass index and poor skin care conditions**  
Larissa Monteiro, Federal University of Bahia, Brazil

---

**Certificates Distribution**
Day 2

**Keynotes**

**Presentation on: Beta adrenergic signaling in Down syndrome and Alzheimer’s disease**  
Ahmad Salehi, Stanford Medical School, USA

**Presentation on: Multiscale genomic approach and Big Data analysis support a shared etiology between Type 2 Diabetes and Alzheimer’s disease**  
Giulio Maria Pasinetti, Icahn School of Medicine at Mount Sinai, USA

**Presentation on: Imaging neurotransmission in the live human brain**  
Rajendra D. Badgaiyan, University of Minnesota, USA

**Presentation on: Biomarkers- directed strategies to prevent, early diagnose and treat autism**  
Afaf El-Ansary, King Saud University, Saudi Arabia

**Tea Break**

**Presentation on:**  
**MTRNR2L12: A candidate blood marker of early Alzheimer’s disease-like dementia**  
Miroslaw Bik-Multanowski, Jagiellonian University Medical College, Poland

**Presentation on:**  
**The contributions of game therapy in motor performance of individual with cerebral palsy**  
Thiago Da Silva Dias, MCPHS University, USA

**Presentation on:**  
**Analysis of iPSC-Derived dopaminergic neuron susceptibility to influenza and excitotoxicity in non-affective psychosis**  
Jamileh Ahmed, University of South Florida, USA

**Presentation on:**  
**The effects of mirror therapy on the gait of subacute stroke patients: A randomized controlled trial**  
Myoung-kwon Kim, Daegu university, Republic of Korea

**Presentation on:**  
**Which type of cane is the most efficient, based on oxygen consumption and balance capacity, in chronic stroke patients?**  
Jung-Wan Koo, The Catholic University of Korea, Republic of Korea

**Presentation on:**  
**The effect of smartphone-based speed-interactive treadmill exercise using body motion tracking technology on gait in stroke patients**  
Changho Song, Sahmyook University, South Korea

**Presentation on:**  
**HIV-1 Vpr disrupts axonal transport through induction of α-Synuclein**  
Ying Wang, Temple University, USA

**Presentation on:**  
**Vitamin D immunomodulatory potential in multiple sclerosis**  
Georgi Slavov, Medical University, Bulgaria

**Presentation on:**  
**Memory-enhancing and neuroprotective actions of N-palmitoyl serotonin in scopolamine-induced amnesia mice**  
Mee Ree Kim, Chungnam National University, Korea

**Presentation on:**  
**Transcranial Direct Current Stimulation (tDCS) therapy for major depressive disorder in HIV population: A safe, effective noninvasive promising treatment as compared to conventional antidepressant therapy**  
Satneet Singh, Cooper University Hospital, New Jersey

**Presentation on:**  
**Parkinson’s disease and psychosis treated with Clozapine**  
Raja Mahabaleshwara Hiremani, Flinders Medical Centre/Southern Adelaide Local Health Network, Australia

**Presentation on:**  
**Outcome of repetitive facilitation exercises in convalescent stroke patients with impaired health status**  
Shuji Matsumoto, Kagoshima University, Japan

**Presentation on:**  
**Increasing self-awareness in students with autism**  
Christine K. Duff, University of Central Florida, USA

**Presentation on:**  
**The impact of sleep quality on cognitive functioning in Veterans with complex medical problems**  
Michelle Madore, Stanford University School of Medicine, USA

**Poster Session**

**Presentation on:**  
**Which type of cane is the most efficient, based on oxygen consumption and balance capacity, in chronic stroke patients?**  
Jung-Wan Koo, The Catholic University of Korea, Republic of Korea
Presentation on: **Induction of spinal GluN2B-dependent LTP via BDNF contributes to the development of neuropathic pain**

Xu Ding, Beijing Children's Hospital, China

Presentation on: **Genetics and Migraine: Study on the Relationship between COMT and Migraine**

Natasha Anand, Proove Biosciences, USA

Presentation on: **Genetics and Fibromyalgia: Study on the Relationship between SHT2a and Fibromyalgia**

Natasha Anand, Proove Biosciences, USA

Presentation on: **Genetics and Insomnia: Study on the Role of DAT1 in Risk of Insomnia**

Natasha Anand, Proove Biosciences, USA

Presentation on: **Estimation of radiation risks for occupational and patient exposure in neuroradiological interventional procedures**

Khalid Alzimami, King Saud University, Saudi Arabia

Presentation on: **Bifunctional modulators of Aβ aggregation as potential agents for Alzheimer’s disease therapy**

Ming-Kuan Hu, National Defense Medical Center, Taiwan

Presentation on: **Rhinocerebral mucormycosis with top of basilar artery syndrome**

N.S. Sampath Kumar, Narayana Medical college and Hospital, India

Presentation on: **Effect of Tai Chi Chuan on balance in women with multiple sclerosis**

Mohammadali Hosseini, University of Social Welfare and Rehabilitation Sciences, Iran

Presentation on: **Association of multidrug resistance protein 1 (MRP1) gene polymorphism in malignant glioma in North Indian population under temozolomide based chemo-radiation therapy**

Srinivasan Munisamy, All India Institute of Medical Sciences, India

Presentation on: **Eosinophilic meningitis in a child with thalamic infarct**

Suchetha Rao, Manipal University, India

Presentation on: **On base of space time theory, neurological disorders are the results of chaos in neurons released electromagnetism wavelengths as the consequence of abnormalities in brain metabolism**

Mojtaba Omid, Istanbul University Medical School, Turkey

Presentation on: **Electroencephalographic characteristics of Iranian schizophrenia Patients**

Irman Chaychi, Mashhad University of Medical Science, Iran

Presentation on: **Platelets in neurodegenerative diseases: A systemic overview**

Mohita Shrivastava, Army College of Medical Sciences

Presentation on: **The effects of a six-week motorized aquatic treadmill exercise program on cardiorespiratory fitness and walking endurance in subacute stroke patients**

Eun Young Han, Jeju National University, South Korea

Presentation on: **A research on the assessment of patients with schizophrenia aggressive by using quantum resonance spectrometer**

Jianguo Shi, Xi’an Mental Health Center, China

Presentation on: **Comparison of ApoE-related brain connectivity differences in EMCI and normal aging populations: An fMRI study**

Faye McKenna, Boston University School of Medicine, USA

Presentation on: **Unemployment is one of risk factors of depression disorder**

Yan Zhang, Xi’an Mental Health Center, China

Presentation on: **Restraint stress-induced neuronal loss involves brain glutathione system and resveratrol has reversed this effect in rat brain**

Sampath Kumar Madhyastha, Kasturba Medical College, INDIA

Certificates Distribution for Poster Presentation will be at Break out 1 at the end of conference session
# Break Out 1

---

- Neuromuscular disorders and peripheral neuropathies
- Autism and neurodevelopmental disorders
- Biomarkers and disease mechanisms in neurological disorders
Certificates Distribution

Break Out 2

- Neurodegenerative diseases
- Therapeutic Options and Treatment
- Prevention and Treatment Strategies

11:25-13:20

Presentation on: Molecular elucidation and engineering of stem cell fate decisions
David Schaffer, University of California at Berkeley, USA

Presentation on: Attenuation of Aβ25–35-induced parallel autophagic and apoptotic cell death by Gypenoside XVII through the estrogen receptor-dependent activation of Nrf2/ARE pathways
Ming Wang, Chinese Academy of Medical Sciences, China

Presentation on: A role for inflammation in the pathogenesis of Lyme neuroborreliosis
Geeta Ramesh, Tulane National Primate Research Center, USA

Presentation on: ACAT1/SOAT1 as a therapeutic target for Alzheimer’s and other related neurodegenerative diseases
Ta Yuan Chang, Geisel School of Medicine Dartmouth, USA

Presentation on: Paraphenylene diamine (Hair Dye) poisoning leading to critical illness neuropathy
Neelam Saleem Punjani, Aga Khan University Hospital, Pakistan

Presentation on: Paraphenylene diamine (Hair Dye) poisoning leading to critical illness neuropathy
Neelam Saleem Punjani, Aga Khan University Hospital, Pakistan

13:20-14:05

Lunch Break & Networking

14:05-16:05

Presentation on: NADPH oxidase activation and 4-hydroxy-2-nonenal/aquaporin-4 adducts as possible new players in oxidative neuronal damage presents in drug-resistant epilepsy
Giuseppe Valacchi, University of Ferrara, Italy

Presentation on: Pharmacogenetics of phase II metabolism enzyme uridine diphosphate glucuronosyltransferase (UGT) genetic polymorphism on sodium valproate pharmacokinetics in epilepsy
Murali Munisamy, King Khalid University, KSA

Presentation on: Association of prone position with sudden unexpected death in epilepsy
James Tao, The University of Chicago, USA

Presentation on: Prevalence of drug resistant epilepsy in adults with epilepsy attending a neurology clinic of a tertiary referral hospital in Singapore
Paul C. Ho, National University of Singapore, Singapore

Presentation on: Choosing antiepilepsy drugs by seizure characteristics: A novel concept
Paul H McCabe, Geisinger Health System, USA

Presentation on: Paraphenylene diamine (Hair Dye) poisoning leading to critical illness neuropathy
Neelam Saleem Punjani, Aga Khan University Hospital, Pakistan

Presentation on: Paraphenylene diamine (Hair Dye) poisoning leading to critical illness neuropathy
Neelam Saleem Punjani, Aga Khan University Hospital, Pakistan
Certificates Distribution

Break Out 1

Day 3

- Advances in stroke management • Stroke: Prevention, treatment and recovery

Presentation on: **Excitotoxic potential of adenosine signaling in the brain: Novel targets for Neuroprotection?**
Francisco S. Cayabyab, University of Saskatchewan, Canada

Presentation on: **Stroke after coronary artery bypass surgery with and without cardiopulmonary bypass**
Javed Iqbal, Punjab Institute of Cardiology, Pakistan

Presentation on: **The enigma of relationship between anemia and Pediatric stroke; A prospective study evaluating relationship between iron status parameters and hematologic indices with Pediatric stroke**
Manish Parakh, Dr S N Medical College, India

Presentation on: **AMPA receptor antagonists for the treatment of epilepsy: a novel approach based upon auxiliary proteins**
Jeffrey M. Witkin, Lilly Research Labs, USA

Presentation on: **Alpha-synuclein amyloid interaction with prion protein: a putative overlap of two neurodegenerative diseases**
Giuseppe Legname, Scuola Internazionale Superiore di Studi Avanzati, Italy

Presentation on: **Expression of one important chaperone protein, heat shock protein 27, in neurodegenerative diseases**
Lucia Carvelli, University of North Dakota School of Medicine, USA

Presentation on: **Post Status Epilepticus treatment with the cannabinoid agonist WIN 55,212-2 prevents chronic epileptic hippocampal damage in rats**
Roberto Di Maio, University of Pittsburgh, USA

Presentation on: **Complex phenomenon of suicide: Neurobiology and clinical aspects of the unmet public health dilemma**
Mariyah Z. Hussain, Foundation University Medical College, Pakistan

Presentation on: **Anti fibrillogenic and fibril destabilizing effects of metal ions for goat brain cystatin (GBC) fibrils in vitro**
Waseem Feeroze Bhat, Aligarh Muslim University, India

Presentation on: **Neuropharmacological review of the Nootropic herb Bacopa Monnieri**
Sebastian Aguiar, Claremont Colleges, USA

Presentation on: **Amphetamine and β-phenylethylamine cause locomotor effects through activation of an amine-gated chloride channel**
Lucia Carvelli, University of North Dakota School of Medicine, USA

Presentation on: **Association of serotonin transporter gene (5HTT) polymorphism and juvenile myoclonic epilepsy: A case-control study**
Eman H Esmail, Cairo University, Egypt

Presentation on: **Expression of one important chaperone protein, heat shock protein 27, in neurodegenerative diseases**
Lucia Carvelli, University of North Dakota School of Medicine, USA

Presentation on: **Association of serotonin transporter gene (5HTT) polymorphism and juvenile myoclonic epilepsy: A case-control study**
Eman H Esmail, Cairo University, Egypt

Presentation on: **Post Status Epilepticus treatment with the cannabinoid agonist WIN 55,212-2 prevents chronic epileptic hippocampal damage in rats**
Roberto Di Maio, University of Pittsburgh, USA

Presentation on: **Complex phenomenon of suicide: Neurobiology and clinical aspects of the unmet public health dilemma**
Mariyah Z. Hussain, Foundation University Medical College, Pakistan

Presentation on: **Anti fibrillogenic and fibril destabilizing effects of metal ions for goat brain cystatin (GBC) fibrils in vitro**
Waseem Feeroze Bhat, Aligarh Muslim University, India

Presentation on: **Neuropharmacological review of the Nootropic herb Bacopa Monnieri**
Sebastian Aguiar, Claremont Colleges, USA

Presentation on: **Amphetamine and β-phenylethylamine cause locomotor effects through activation of an amine-gated chloride channel**
Lucia Carvelli, University of North Dakota School of Medicine, USA

Presentation on: **Association of serotonin transporter gene (5HTT) polymorphism and juvenile myoclonic epilepsy: A case-control study**
Eman H Esmail, Cairo University, Egypt

Presentation on: **Expression of one important chaperone protein, heat shock protein 27, in neurodegenerative diseases**
Lucia Carvelli, University of North Dakota School of Medicine, USA

Presentation on: **Association of serotonin transporter gene (5HTT) polymorphism and juvenile myoclonic epilepsy: A case-control study**
Eman H Esmail, Cairo University, Egypt

Presentation on: **Post Status Epilepticus treatment with the cannabinoid agonist WIN 55,212-2 prevents chronic epileptic hippocampal damage in rats**
Roberto Di Maio, University of Pittsburgh, USA

Presentation on: **Complex phenomenon of suicide: Neurobiology and clinical aspects of the unmet public health dilemma**
Mariyah Z. Hussain, Foundation University Medical College, Pakistan

Presentation on: **Anti fibrillogenic and fibril destabilizing effects of metal ions for goat brain cystatin (GBC) fibrils in vitro**
Waseem Feeroze Bhat, Aligarh Muslim University, India

Presentation on: **Neuropharmacological review of the Nootropic herb Bacopa Monnieri**
Sebastian Aguiar, Claremont Colleges, USA

Tea Break

.................................16:05-16:20

Presentation on: **Alpha-synuclein amyloid interaction with prion protein: a putative overlap of two neurodegenerative diseases**
Giuseppe Legname, Scuola Internazionale Superiore di Studi Avanzati, Italy

Presentation on: **Expression of one important chaperone protein, heat shock protein 27, in neurodegenerative diseases**
Lucia Carvelli, University of North Dakota School of Medicine, USA

Presentation on: **Post Status Epilepticus treatment with the cannabinoid agonist WIN 55,212-2 prevents chronic epileptic hippocampal damage in rats**
Roberto Di Maio, University of Pittsburgh, USA

Presentation on: **Complex phenomenon of suicide: Neurobiology and clinical aspects of the unmet public health dilemma**
Mariyah Z. Hussain, Foundation University Medical College, Pakistan

Presentation on: **Anti fibrillogenic and fibril destabilizing effects of metal ions for goat brain cystatin (GBC) fibrils in vitro**
Waseem Feeroze Bhat, Aligarh Muslim University, India

Presentation on: **Neuropharmacological review of the Nootropic herb Bacopa Monnieri**
Sebastian Aguiar, Claremont Colleges, USA

.................................16:20-18:45

Presentation on: **AMP A receptor antagonists for the treatment of epilepsy: a novel approach based upon auxiliary proteins**
Jeffrey M. Witkin, Lilly Research Labs, USA

Presentation on: **Alpha-synuclein amyloid interaction with prion protein: a putative overlap of two neurodegenerative diseases**
Giuseppe Legname, Scuola Internazionale Superiore di Studi Avanzati, Italy

Presentation on: **Expression of one important chaperone protein, heat shock protein 27, in neurodegenerative diseases**
Lucia Carvelli, University of North Dakota School of Medicine, USA

Presentation on: **Post Status Epilepticus treatment with the cannabinoid agonist WIN 55,212-2 prevents chronic epileptic hippocampal damage in rats**
Roberto Di Maio, University of Pittsburgh, USA

Presentation on: **Complex phenomenon of suicide: Neurobiology and clinical aspects of the unmet public health dilemma**
Mariyah Z. Hussain, Foundation University Medical College, Pakistan

Presentation on: **Anti fibrillogenic and fibril destabilizing effects of metal ions for goat brain cystatin (GBC) fibrils in vitro**
Waseem Feeroze Bhat, Aligarh Muslim University, India

Presentation on: **Neuropharmacological review of the Nootropic herb Bacopa Monnieri**
Sebastian Aguiar, Claremont Colleges, USA

.................................09:00-10:20

Presentation on: **Excitotoxic potential of adenosine signaling in the brain: Novel targets for Neuroprotection?**
Francisco S. Cayabyab, University of Saskatchewan, Canada

Presentation on: **The value of adding somatosensory stimulation to mirror therapy on muscular, sensorimotor and daily function in stroke patients: A randomized, placebo-controlled study**
Ching-yi Wu, Chang Gung University, Taiwan

Presentation on: **Stroke after coronary artery bypass surgery with and without cardiopulmonary bypass**
Javed Iqbal, Punjab Institute of Cardiology, Pakistan

Presentation on: **The enigma of relationship between anemia and Pediatric stroke; A prospective study evaluating relationship between iron status parameters and hematologic indices with Pediatric stroke**
Manish Parakh, Dr S N Medical College, India

.................................09:00-10:20
Tea Break

10:20-10:35

Presentation on: Cost-effectiveness of dabigatran and rivaroxaban compared with warfarin for stroke prevention in patients with atrial fibrillation
Ye Wang, Harvard Medical School, USA

Presentation on: C.I.M.T.: Theory of research in neurorehabilitation for patients with severe brain injury
Ylenia Tripovic, Centro Adelphi, Italy

Presentation on: CinMT in patients with an outcome of brain injury after stroke vs post TBI
Francesco Formenti, Centro Adelphi, Italy

Presentation on: Detection of atrial fibrillation in stroke patients
Gerben J.J. Plas, Medisch Spectrum Twente, The Netherlands

Presentation on: Impact of bone fracture on stroke recovery
Hua Su, University of California, USA

Presentation on: Atrial fibrillation is associated with disturbed glucose metabolism in patients with ischemic stroke and TIA
Elizabeth Osei, Medisch Spectrum Twente, Netherlands

Presentation on: Public knowledge of cardiovascular disease and its risk factors in Kuwait: a cross-sectional survey
Abdelmoneim Awad, Kuwait University, Kuwait

Presentation on: PPARy and IL-6 -174G>C gene variants in croatian patients with Ischemic stroke
Antonela Bazina, University Hospital Centre Zagreb, Croatia

Presentation on: Aneurysms associated with ruptured brain AVMs: Does emergent endovascular treatment have a protective role against rebleeding?
Francesco Signorelli, Lyon Civil Hospitals, France

Presentation on: Vit. D3 as a prognostic factor in cerebro vascular stroke
N.S. Sampath Kumar, Narayana Medical college and Hospital, India

Presentation on: Results of treatment with fibrinolysis in ischemic stroke. Survival differences by sex
JL Clua Espuny, Institut Català de la Salut, Spain

Lunch Break & Networking

13:35-14:30

Break Out 2

- Multiple sclerosis and cns demyelinating disorders
- Migraine and Headaches
- Rehabilitation, devices, and services for patients and caregivers
- Case studies and ethical issues

Presentation on: Pathological patterns in relapsing-remitting and chronic models of multiple sclerosis and the therapeutic effect of glatiramer acetate
Rina Aharoni, The Weizmann Institute of Science, Israel

Presentation on: Acute pancreatitis, possible association of dimethyl fumarate for the treatment of relapsing-remitting multiple sclerosis
Hongxiu Luo, Raritan Bay Medical Center, USA
Presentation on: Cinnarizine for the prophylaxis of migraine associated vertigo: A retrospective study
Foad Taghdiri, Tehran University of Medical Sciences, Iran
Presentation on: Advances in migraine understanding and treatment
Teshamae Monteith, University of Miami, USA
Presentation on: Analytic information processing style and neurophysiological correlates: Focus on migraine and cluster headache
Marzia Buonfiglio, Sapienza University of Rome, Italy
Amy Duncan, University of Cape Town, South Africa
Presentation on: BMT monitors neuropsychiatric disorders with bio-impedance units
Yakov Naisberg, National Israeli Center for Psychosocial Support of Survivors of the Holocaust and the Second Generation, Israel
Presentation on: Caregiving Immediately after Stroke: A study of depressive symptoms in caregivers of older adults
Eeeseung Byun, University of California, USA
Presentation on: A new assessment for episodic memory. Episodic memory test and caregiver’s episodic memory test
T. Ojea Ortega, Hospital Regional Universitario Carlos Haya, Spain
Presentation on: Collision or convergence? Beliefs and politics in neuroscience discovery, ethics, and intervention
Ben Paylor, University of British Columbia, Canada
Presentation on: Impact of DA on T cell behavior of MS patients
Cleonice Bento, Federal University of the State of Rio de Janeiro, Brazil
Presentation on: A single patient experience of simultaneous placement of an implantable cardioverter defibrillator for prevention of sudden death in Emery-Dreifuss muscular dystrophy
George Lye, Bradford Teaching Hospitals, UK
Presentation on: Linear headache: A novel headache syndrome?
Yu Wang, The First Hospital of Anhui Medical University, China
Presentation on: Is multiple sclerosis a granulomatous disorder
Colin L. Crawford

Certificates Distribution

Lunch Break & Networking
